The Corporate Spreadsheet Analyzer

Your IBM PC-Compatible Spreadsheet Analyzer And Credit Scoring Template For Use With Lotus 1-2-3

Use this spreadsheet program to limit risk, cut charge offs, and assess your customers' financial strength and solvency. The Spreadsheet Analyzer computes some 47 financial ratios and automatically runs your customer's spreadsheet variables through two credit scoring methods and a solvency matrix, plus it interprets and scores the results.

The Analyzer works on scores of industries and business fields, however, it is not designed to be effective in the analysis of service companies, health care industries or consumer credit.
